

# GCSE OCCUPATIONAL STUDIES DIGITAL TECHNOLOGY

EXAMINING BOARD: CCEA

## *Course Content:*

This qualification has been designed to provide a more ‘hands-on’ approach to learning and will appeal to learners who are better suited to develop their skills in a more practical, occupationally orientated environment.

## *You will study ...*

- *Unit 1 Digital Music Composition:* You will learn how to create your own musical composition using digital music software, mixes and sampling, and create your own CD.
- *Unit 2 Digital Imaging:* You will learn how to scan images and use digital image manipulation software to create your own images.

## *You will be assessed in the following way ...*

The assessment process is designed to enable learners to obtain recognition and reward for what they achieve and produce. Each of the units is entirely coursework based and all units are internally assessed and externally moderated, weighted equally as 50% of the overall grade.

## *Future Prospects:*

If you see your future in the fast-paced, innovative area of digital media then this could be the course to get you started.

Are you talented, creative and interested in video, sound, images, design and the web? Do you see yourself working in one the creative industries such as film, television, advertising, web solutions, digital video, digital music or graphic design? A GCSE in Digital Technology gives you the opportunity to gain a qualification in this growing area.
